GAS INSERTS

INSPIRED INNOVATION. You don't have to sacrifice the warmth and glow of a wood burning fireplace for the simplicity and ease of gas. No more drafty, dated fireplace with messy maintenance, soot and smoke. Heat & Glo gas inserts fit inside an existing masonry or manufactured wood burning fireplace, providing an instant upgrade. Warm up to greater performance, safety and convenience.

FIRE MADE
EASY

ESCAPE-30 Firebrick* shown with Chateau Forge front

AN INSTANT UPGRADE

NO MESS. NO HASSLE.

ESCAPE

STANDARD FEATURES

- 30" and 35" viewing areas
- Up to 40,000 BTUs
- IntelliFire Touch® ignition system with touchscreen remote control and Wi-Fi option
- Six hand-painted oak-style logs
- Anti-reflective glass
- ClearVue™ screen
- Patented FireBrick® seamless interior
- Five front designs
- Three surround sizes
- Illuminated ember bed
- Fan

- 30" and 35" viewing areas
- Up to 30,000 BTUs
- IntelliFire Touch® ignition system with touchscreen remote control and Wi-Fi option
- Three front designs*
- Three surround sizes
- Fade resistant fluted black glass
- Six glass media options (required for install)
- Fan

*Inside fit front available for use with custom surrounds that are smaller than a standard overlap door

TRANSITIONAL OR MODERN

THREE EASY STEPS TO UPGRADE YOUR EXISTING WOOD-BURNING FIREPLACE:

STEP 1: MEASURE YOUR EXISTING FIREPLACE AND SELECT YOUR INSERT.

The height, width and depth of the existing fireplace opening is needed to ensure selection of an appropriately-sized insert:

- A. Fireplace front width _____ E. Hearth to mantel height _____
- B. Fireplace front height _____
- C. Fireplace back width _____
- D. Fireplace depth _____
- If you have a manufactured wood burning fireplace, measure from the inside of the fireplace opening, not the outside trim.

STEP 2: SELECT YOUR FRONT AND SURROUND

Personalize your gas insert with a front and finish that fits your style. Include a surround to fill the gap between the gas insert and existing fireplace opening. Choose from three sizes and three finishes for a unique look.

SURROUND	ESCAPE-35-IFT SUPREME-I35-IFT COSMO-I35-IFT	ESCAPE-30-IFT SUPREME-I30-IFT COSMO-I30-IFT	SUPREME-I25-IFT
Small	42" x 29"	40" x 27"	35" x 23"
Medium	44" x 32"	42" x 30"	37" x 26"
Large	48" x 32"	44" x 32"	39" x 28"

- ☒ SMALL SURROUND
- ☐ MEDIUM SURROUND
- ☐ LARGE SURROUND

CONTROLS

INTELLIFIRE® APP

All the features of a remote control with an app installed on your smart device. Monitor your fire from anywhere or even control it with the sound of your voice. IntelliFire is compatible with voice assistants Amazon Alexa and Google Assistant.

TOUCHSCREEN REMOTE

Features: on/off, flame height adjustment, fan speed, lights adjustment, thermostat mode, room temperature readout, child lock, timer mode, battery backup, cold climate mode, power vent, wall docking station (fan, lights and power vent are dependent on your fireplace).

WIRELESS WALL SWITCH

Features: on/off, battery strength indicator, cold climate mode

PROVIDENT : SMARTREMOTE (Optional)

Features: on/off, timer mode, thermostat mode, room temperature readout

TERMINATION CAPS

A termination cap finishes your gas insert with a clean, upscale look. These durable caps also protect venting components and ensure safe exhaust flow.

Provident-30 metal insert shown with Firescreen front in black and metal interior

TECHNOLOGIES

INTELLIFIRE TOUCH IGNITION SYSTEM
IntelliFire Touch is our most advanced intermittent-pilot ignition (IPI) system, making operating your appliance simple, smart and safe. Select the IntelliFire app, touch-screen remote control or wireless wall switch for the solution that fits your lifestyle.

INTELLIFIRE IGNITION SYSTEM (IPI)
IntelliFire features intermittent-pilot ignition (IPI) allowing you to conserve fuel and money when the fireplace is not in use.

DIRECT VENT TECHNOLOGY
Direct Vent gas inserts remove 100% of combustion exhaust and fumes to the outside of the home. These sealed fireplaces provide optimal heat, conserve energy and ensure clean, safe indoor air quality.

FIREBRICK TECHNOLOGY
Available on Escape inserts, FireBrick is a patented, energy-saving ceramic material molded in an authentic masonry design. FireBrick produces up to 25% more radiant heat than metal fireboxes—heating rooms faster and using less fuel. This increases efficiency and reduces heating costs. A unique ceramic composition is at the core of the FireBrick innovation.

Dimensions above are in inches. Reference dimensions only. We recommend measuring individual units at installation. NOTE: Combustible material should not be installed over the face. Make sure you do NOT cover the decorative door opening. Refer to installation manual for detailed specifications on installing this product. Heat & Glo reserves the right to update units periodically. The flame and ember appearance may vary based on the type of fuel burned and the venting configuration used. Pictures in this brochure are not a true representation of the fireplace and/or flames.
